STOCKS STRUGGLE WITH REALIZING

Movement to Take Profits Resisted, But Market Was Very Irregular.

BETTER OUTLOOK PEACE

Considerable Contraction in Loan Item, Shown By Bank Statement, Caused Surprise.

(By Associated Press.) NEW YORK, August 12.—The disposi

tion to sell and take profits which was manifest in the late trading yesterday on the Stock Exchange continued to-day and an irregular market resulted. The movement encountered good resistance at the decline and was followed by an effective recovery, but the realizing was renewed in the late dealings and made the closing irregular.

The selling seemed to be prompted by some uncasiness over the contemplation of the bank statement, judging by the repurchases which set in after the appearance of that document. It showed all of the expected decrease in cash reserves, but the considerable contraction in the loan item was a total surprise in view of the revival of demand for money in speculation during the week. The demand for loans has been sufficient, in fact, to result in hardening the tone for money to carry over the end of the year. The reports from the peace conference were also watched attentively, and the news that the counter-proposition of the Russians was taken under consideration by the Japanese envoys, which seemed to point the way to further negotiations, helped in the late recovery.

The very large buying of Reading and Ontarlo and Western kept up the tone of the market, but was offset at the last by the marked pressure upon St. Paul and Amalgamated Copper.

The total sales of bonds, par value, amounted to \$85,000.

The total sales of stocks amounted to 410,700 shares. pearance of that document. It showed all

The Times-Dispatch is by far the most popular paper that reaches this section, and is so much sought after that it is almost an everyday occurrence that not a paper is left in the office twenty minutes after they are distributed.

Only one speech has been made in this county, this being Senator Martin's, opening his campaign at Lunenburg a few months ago.

There has been steady increase in the lumber business in this section. During this summer the Lunenburg Lumber Company has put in two new mills and are preparing to put in a large box and stave factory next month, to use in connection with their Richmond plant, and instead of shipping the large, heavy boards as herotofore, will manufacture this class of timber in short boards, ready to be used as soon as they are shipped. A large supply of timber is being cut for this mill. They are also extending their rairoad into new territory, perparing for the winter months.
